

Just in case you haven't heard...

Apothecary Options
has the BEST price on compounded
topical testosterone replacement
in **California!**

Testosterone Pricing

Apothecary Options advocates responsible testosterone replacement, for use in men with signs and symptoms of testosterone deficiency. Natural (100% bio-identical) testosterone is a controlled substance, regulated by the Drug Enforcement Agency (DEA). Only prescribers with valid DEA numbers may prescribe testosterone replacement - and only within the scope of their normal medical practice.

Testosterone replacement products should not be used to enhance athletic performance. Our staff will always verify the legitimacy of all prescriptions directly with the prescriber as required by law. We will refuse to fill any prescription that we believe does not meet the intentions and guidelines of responsible testosterone replacement.

We dispense topical testosterone in calibrated syringes for accurate dosing and ease of administration. 100gm of testosterone cream or gel represents a 100-day supply (based on 1gm per day dosing). Compare our product to AndroGel®. **A 30-day supply of AndroGel® 5gm packets costs \$344** (source Drugstore.com July 2011). Each individual packet contains 50mg of natural testosterone. For the same daily dosage of testosterone, we charge our patients less than \$17 per month. This is lower than the co-payment amount charged by most insurance companies!

<u>Dosage</u>	<u>Days Supply</u>	<u>Price</u>	<u>Cost per month</u>
15mg/day	120 days	\$49.75	\$12.44
25mg/day	120 days	\$56.60	\$14.15
50mg/day	120 days	\$66.55	\$16.64
100mg/day	120 days	\$77.40	\$19.35

We offer FREE ground shipping on all orders over \$60
